Product Features and Benefits:

- ◆ **APPLICATIONS:**
 - Protects metal heat exchangers and plating processes from stray voltage or current.
 - Prevents seizing between metal lines.
 - Dampens vibrations.
- ◆ **RUGGED CONSTRUCTION:** Fluoropolymer (PTFE) body with 316 stainless steel retainer ring for added structural integrity.
- ◆ **CAPACITIES:**
 - Sizes from 1/2-inch FNPT to 2-inch FNPT.
 - Maximum steam service: 50 PSIG.
- ◆ **OPTIONS AVAILABLE** (consult factory):
 - Titanium retainer rings.
 - Special lengths.
 - Metric sizes.
